DETAILED ACTION

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-19 and 28-59 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

The applicant's arguments have been considered but have not been deemed persuasive. The claims fail to particularly transform an article of manufacture.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 20,21 and 51-59 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Jahnke of record. The applicant argues that Jahnke fails to teach of "providing the bid data to a competing bidder that meets a condition for receiving the bid data". The examiner finds the applicant's reading of the claim language to be too narrow. The reference renders obvious this step as the data can read on just the price and the condition can read on log in credentials. It would have been obvious for one skilled in the art at the time to have added this feature to the Jahnke as motivated by the balance the requirements of access and (security/false bids). The applicant also argues that the reference fails to teach of "providing market feedback to one or more selected client processors from which the bid server received a valid bid". The examiner finds the applicant's reading of the claim language to be too narrow as the it would have been obvious for one skilled in the art at the time to have provided feedback as to receipt of their bid or the status of their bid.

In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
